AMENDED IN ASSEMBLY APRIL 1, 2003

CALIFORNIA LEGISLATURE—2003-04 REGULAR SESSION

ASSEMBLY BILL

No. 314

Introduced by Assembly Member Kehoe (Coauthors: Assembly Members Hancock and Plescia)

February 7, 2003

An act to add Section 111 to the Water Code, relating to water.

LEGISLATIVE COUNSEL'S DIGEST

AB 314, as amended, Kehoe. Desalination.

Existing law, on or before January 1, 2004, requires the Department of Water Resources to report to the Legislature on potential opportunities for the use of seawater and brackish water desalination, and for the purposes of that report, to examine the role of the state, if any, in furthering the use of desalination in the state.

This bill would declare that it is the policy of the state to facilitate the development of that desalination projects developed for public water entities be considered for assistance and funding on an equal basis with other water efficiency, supply, and reliability projects, and that desalination projects be consistent with all applicable environmental protection policies in the state.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 111 is added to the Water Code, to read:

2

AB 314 — 2 —

1 111. (a) The Legislature hereby finds and declares that the growing water needs of the state require the development of cost effective and efficient water supply technologies. Desalination technology is now feasible to help provide significant new water supplies from seawater, brackish water, and reclaimed water. Desalination technology can also provide an effective means of treating some types of contamination in water supplies. Desalination is consistent with both state water supply and efficiency policy goals, and joint state-federal environmental and water policy and principles promoted by the Cal-Fed Bay Delta Program.

(b) It is hereby declared to be the established the policy of this state to facilitate the development of desalination projects, and that these projects should be eligible for assistance and funding on an equal basis with projects for water supply reliability and efficiency. that desalination projects developed for public water entities be considered for assistance and funding on an equal basis with other water efficiency, supply, and reliability projects, and that desalination be consistent with all applicable environmental protection policies in the state.
